- **DataBase:** MongoDB,MySQL
- **Soft Skills:** Leadership, Event Management, Teamwork,Communication,Logical Thinking

## PROJECTS

- **Live Chat App:** | *React.js, CSS* |
  1. Developed a real-time chat app using React, Vite, and Node.js.
  2. Innovated with JavaScript, HTML, and CSS for frontend design.
  3. Implemented RESTful API endpoints for efficient database integration.
  4. Utilized Postman for comprehensive API testing and validation.
  5. Prioritized responsive design for optimal user experience across devices.
  6. Github: <https://github.com/Pranavchaure/Live-Chat-App>
- **Live Crypto Tracker:** | *React.js, Tailwind CSS, GIT* |
  1. Created a real-time crypto tracker website with Tailwind CSS and React Js.
  2. Used APIs to fetch data.
  3. Provides real-time insights into cryptocurrency prices.
  4. Offers convenience by centralizing tracking of multiple cryptocurrencies across exchanges
  5. Github: <https://github.com/Pranavchaure/Live-Crypto-Tracker>
- **Travel Site:** | *HTML,CSS, Javascript* |
  1. Developed a front-end project for a travel website using JavaScript, CSS, and HTML.
  2. Features intuitive navigation menus aimed at enhancing the user experience.
  3. Implemented responsive design principles to optimize the application for a wide range of devices, including desktops, tablets, and mobile phones, thereby enhancing accessibility for users across different platforms.
  4. Github: <https://github.com/Pranavchaure/Travel-Website>

## HACKATHONS

- Codefiesta  
Actively participated in Codefiesta, an annual hackathon organized by the programming club of IIIT Nagpur. Demonstrated strong coding skills and contributed to developing innovative solutions for various challenges.
- Geek for Geek WEB3  
Participated in Geek for Geek WEB3, hosted by GFG itself. Enhanced my coding skills.

## HOBBIES

- Reading
- Playing Football
- Cooking
- Travel
